"EXHIBIT A"

March 10, 1930.

Board of Public Works, Indianapolis, Indiana:

Gentlemen:

Pursuant to your request, we herewith submit for your consideration proposal for furnishing steam heating service for the City Hall Building, Alabama and Ohio Streets.

The Company proposes to furnish steam heating service to this building under blanket billing arrangement with the Municipal Garage and Fire Headquarters Buildings at 225-237 N. Alabama Street.

Under this arrangement the cost per thousand pounds of steam for the City Hall Building would be at the last step of rate or 65 cents per 1,000 pounds.

With automatic regulation the steam consumption per heating season would be between 4,200,000 pounds and 4,500,000 pounds. Under combined billing basis the cost would be as follows:

4,200,000 lbs. @ 65c.....	\$2,730.00
4,300,000 lbs. @ 65c.....	2,795.00
4,400,000 lbs. @ 65c.....	2,860.00
4,500,000 lbs. @ 65c.....	2,925.00

The Company will furnish Duo-Stat Automatic regulating equipment (only) for the sum of \$253.00. This equipment consists of—

- 1 Raymond Duo-Stat
- 1 Raymond Motor Control
- 1 Mercoid Thermostat (for night control)
- 1 Mercoid Pressure Control

In addition to this equipment a 5-inch "Davis" balanced valve will be necessary, which will be furnished by the contractor or steam-fitter making necessary connections and changes for the use of central station service.

The estimated cost of material and labor (in addition to duo-stat control) is \$750.00. This includes cost of wiring for automatic control, but does not include cost of changes in reheat coils for utilization of condensate from heating system.

The Company will extend a 6-inch main into building without cost to city.

Through arrangement of blanket billing for different buildings herein mentioned, the cost of heating service for the garage and fire station buildings will be reduced.

Yours very truly,
