The following report from the Board of Health was read and received:

Indianapolis, March 21st, 1881.

To the Mayor, Common Council and Board of Aldermen:

Gentlemen:—During the first days of the present month, numerous complaints reached this office, that the Blood Purifying establishment of Crocker & Becker, west of White river, was being conducted in such a manner as to be offensive to the surrounding residents and business men. A personal inspection was made by the Board, and some cause for complaint was found to exist. It was occasioned in part by the use of dead oil and carbolic acid, used liberally for the purpose of correcting the very evil it produced. But the principal cause was found to be in the insufficiency of the natural draft in the furnaces—the fires requiring forcing by a jet of steam, and thereby carrying the offensive gases through the furnaces so rapidly that some portion of them escapes from the furnace and smoke-stack without being burned. This defect has since been remedied by the erection of an additional smoke-stack, and also by passing all gases through a large bed of charcoal. The improvements have been made, and no cause can now be discovered for complaint. The proprietors exhibit such willingness to act on our suggestions regardless of expense, as to convince us that no means will be neglected which will enable them to run the establishment free from offense to the most fastidious.

Respectfully submitted,

E. S. Elder, M. D.,
W. E. Jeffries, M. D.,
W. J. Elstun, M. D.,
Board of Health.

The Mortality report from the Board of Health (see page 969, *ante*) was read and received.

The following report from the Finance Committee was read; and the action of the Common Council thereon (see page 970, *ante*.) was concurred in:

Indianapolis, March 21st, 1881.

To His Honor, the Mayor, Common Council and Board of Aldermen:

Gentlemen:—Your Committee on Finance, to whom sundry papers were referred, beg leave to report on them as follows:

1st. Is the report of the City Clerk and Treasurer for the month of February, which we have examined and compared with their respective books, and find them in proper form and correct—the Treasurer's showing a balance March 1st of \$17,790.49.

2d. Is the report of the Board of Public Improvement, which we find correct—the expenditures of this department to March 1st being \$27,684.25, out of an estimate of \$50,000; showing that this department is living within their estimate.

3d. Is the monthly report of C. A. Ritter, M. D., Superintendent of City Dispensary. The same is correct. The expenditures of the Dispensary to March 1st are \$2,073.86, out of an estimate of \$3,000; living also within their estimate.

4th. Is the report of W. W. Wishard, M. D., Superintendent of City Hospital and Branch, showing an expenditure for the month of February of \$827.22. The report, so far as committee can see, is correct. The Hospital expenses, being up to March 1st, \$8,108.07, out of an estimate of \$11,500, which your committee believes is within their estimate.

5th. Is the report of J. G. Pendergast, Chief Fire Engineer, and Fire Board. The same is in proper form, and, so far as your committee can ascertain, correct. The expenses of this department to March 1st are \$64,002.01, their estimate being \$86,104. By careful management this department can live well within their estimate.

Your committee would urge upon the heads of these different departments the necessity of procuring at lowest wholesale rates (if not already being done) the various articles necessary in their respective departments; and, for that purpose, itemized bills should be presented to your committee for the purpose of comparison.

Respectfully submitted,

Leon Kahn,
E. H. Koller,
M. H. McKay,
John R. Pearson,
Finance Committee.

The report from the Judiciary Committee was read; and the favorable action of the Common Council thereon (see pages 970 and 971, *ante*) was concurred in :

Indianapolis, March 21st, 1881.

To the Mayor and Common Council:

Gentlemen:—Your Judiciary Committee, together with City Attorney, to whom was referred the petition of Francis E. Smock, by R. M. Smock, asking that an erroneous assessment on Lot 4, Square 16, Johnson's Heirs' addition be referred to the City Assessor, with instructions to make such correction as may be just. The assessment is \$800 in excess of the assessment for State and county purposes. Your committee recommend the matter be referred to the City Assessor, with instructions to make proper correction of any error he may have made in this matter.

Respectfully submitted,

James A. Pritchard,
William C. Lamb,
Judiciary Committee.

JOHN A. HENRY, City Attorney.

The report from the Committee on Conference was read; and the favorable action of the Common Council thereon (see page 971, *ante*) was concurred in :

To the Common Council and Board of Aldermen:

Gentlemen:—Your Committee of Conference, after a close examination of the facts relative to the pay of extra police, are of the opinion that a change of the method of paying patrolmen known as "extras" is inexpedient at the present time. We find the present state of the Treasury only adequate to meet our necessities;

that the fiscal year has almost expired, and the estimate for the Police Department is already made. We recommend that the pay of the extra police as heretofore carried on be continued, and that they receive full compensation as regular patrolmen when on duty.

F. W. Hamilton,
Jno. T. Downey,
H. J. Prier,
John Newman,
Jas. T. Dowling,
Conference Committee.
