The following report from the Board of Public Improvements was read; and the favorable action of the Common Council thereon (see page 425, *ante*) was concurred in :

To the Mayor, Common Council, and Board of Aldermen :

Gentlemen:—We submit the following report for your consideration and action thereon:

We recommend that the pay of Robert McClintock, foreman of the bowlder gang, be increased 25 cents per day. Our reason for making said increase is, said foreman is paid by the day, and a large portion of the year he is not able to work, on account of the weather, yet is at all times subject to the call of the Street Commissioner, thereby prevented from seeking other employment. We believe said increase is just, and due Mr. McClintock, and should be made.

Respectfully submitted,

Edward H. Dean,
Wm. H. Morrison,
John R. Cowie,
Board of Public Improvements.

The following petition was read, and the favorable action of the Common Council thereon (see page 425, *ante*) was concurred in :

To the Mayor, Common Council and Board of Aldermen :

Gentlemen:—The undersigned, contractor for grading and graveling Newman street and sidewalks, from Hill avenue to Pendleton Pike; also, said Newman street and sidewalks from Pendleton Pike to Brookside avenue, asks your honorable bodies for forty days additional time to complete the above work; and he says that he has used due diligence in the prosecution of the work, and that he was delayed in doing the same.

R. H. PATTERSON.

STATE OF INDIANA, *Marion County, ss:*

R. H. Patterson, being duly sworn, says the above statement is true.

Sworn to this 1st day of August, 1881.

[Seal.]

GEO. T. BREUNIG, Notary Public.

We have considered the above application, and recommend the request be granted.

Respectfully submitted,

Edward H. Dean,
Wm. H. Morrison,
John R. Cowie,
Board of Public Improvements.

The Mortality report of the Board of Health (see page 427, *ante*) was read and received.

The following report from the Committee on Public Health was read :

Gentlemen:—Your committee, to whom was referred the communication from the Board of Health, in reference to the "future water supply of our city," would report that we have gone over the grounds through which the proposed Gallery System adopted by the Water Company is to run, and find that instead of starting at the junction of Michigan street and the river, that they propose to start from a point north of Fall Creek, near the Belt Railroad, and extend northwest 6,000 feet. We are assured by the company's officials that they do not want the river water in any shape, but as it has been urged by some that the Gallery System *might not* meet an extreme emergency, it may be wise as a precautionary measure to connect with the river at some point above Fall Creek, to be used only in said cases of extreme emergency, consequent upon an extensive conflagration. Said connection

to be regulated by a system of gates or storage reservoirs. They propose to sink said gallery 20 to 30 feet below the water mark at the beginning, rising on a grade of from 3 to 4 feet to the mile, corresponding to the rise in a mile of the low water mark. From the point of commencement of the gallery to their pump works they propose to convey the water in light pipes.

We are of the opinion that the plan, if carried out as proposed, is a good one, and will supply our city and citizens with pure and wholesome water. As the company are earnest in their desire to do this work promptly, we would recommend that they be given every encouragement and assistance on the part of the city and citizens.

The company, through their manager, Mr. S. M. Dyer, desire that the work as it progresses, be carefully examined by the city officials, that the public may feel satisfied that every precaution be taken to avoid any mistakes and prevent the contamination of the water in any way.

Respectfully submitted,

C. T. Bedford,
Phil. Reichwein,
Simeon Coy,

JOHN A. HENRY, City Attorney.
