PROPOSAL NO. 51, 1978. This proposal was introduced at the January 23, 1978, meeting, approving Joseph Slash as deputy mayor. Mr. Tinder presented the Rules & Public Policy Committee report recommending his nomination. After discussion, Mr. Tinder moved, seconded by Mr. Bayt, to adopt Proposal No. 51,

1978. The motion carried by unanimous voice vote. Proposal No. 51, 1978, was retitled COUNCIL RESOLUTION NO. 3, 1978, and reads as follows:

CITY—COUNTY COUNCIL RESOLUTION NO. 3, 1978

A COUNCIL RESOLUTION approving the appointment of a person by the Mayor to fulfill the office of Deputy Mayor for the period from February 6, 1978 through December 31, 1978.

WHEREAS, pursuant to IC 18-4-3-4 and the Code of Indianapolis and Marion County Section 2-143, the appointment by the Mayor of a Deputy Mayor is subject to the approval of the City-County Council; and

WHEREAS, the Mayor of the City of Indianapolis has submitted to this Council the name of his appointee for such a position, to serve in office at the Mayor's pleasure; now, therefore:

BE IT RESOLVED BY THE CITY—COUNTY COUNCIL OF THE CITY OF INDIANAPOLIS AND OF MARION COUNTY, INDIANA:

SECTION 1. Joseph A. Slash is approved and confirmed by the City-County Council for the office of Deputy Mayor of the City of Indianapolis for the term beginning February 6, 1978, and ending December 31, 1978, to serve at the pleasure of the Mayor.

PROPOSAL NO. 74, 1978. Mr. Clark introduced and explained the purpose of this proposal. Due to the National Highway Traffic Safety Administration's ruling on fuel economy standards for certain motor vehicles, the "Scout" will not be able to be produced by International Harvester. The result of the NHTSA's decision means the loss of 1,272 jobs at International Harvester in Indianapolis. This proposal encourages the NHTSA to reconsider their standards. Following discussion, Mr. Clark moved, seconded by Mr. Schneider, to adopt Proposal No. 74, 1978. The motion carried by unanimous voice vote. Proposal No. 74, 1978, was retitled SPECIAL RESOLUTION NO. 4, 1978, and reads as follows:

CITY—COUNTY SPECIAL RESOLUTION NO. 4, 1978

A SPECIAL RESOLUTION requesting NHTSA to reconsider fuel economy standards proposed for certain motor vehicles.

WHEREAS, the National Highway Traffic Safety Administration (NHTSA) has proposed average fuel economy standards for 1980-81 covering nonpassenger automobiles (NPA) with gross vehicle weight rating (GVWR) less than 8,500 lbs; and

WHEREAS, in arriving at its proposed standards, NHTSA has failed to take into account the substantial differences between the functions and purposes of NPAs of less than 6,000 lbs, GVWR and 4x4 NPAs within the 6,000 lbs. to 8,500 lbs. range; and

WHEREAS, these differences in function and purpose call for heavier construction of chassis and engines to handle heavy loads in off-highway situations- meaning in turn, longer warm-up times and higher friction required for the improved durability of engines, transmissions, axles and frames; and

WHEREAS, despite these significant differences, NHTSA determined its fuel economy estimates for these NPAs using an equation derived essentially from passenger car data that grossly oversimplify the fuel economy problem faced by manufacturers of 6,000 lbs. to 8,500 lbs. 4x4 NPAs; and

WHEREAS, NHTSA also ignored the provisions of the Motor Vehicle Information and Cost Savings Act that require NHTSA to consider other federal regulations in establishing fuel economy standards — particularly those of the Environmental Protection Agency that, for example, either completely negate or call into serious question such NHTSA assertions that 6 percent and 4.5 percent improvements in fuel economy are readily available from the use, respectively, of super or synthetic lubricants and radial-ply tires; and

WHEREAS, proposed NHTSA fuel economy standards are based on erroneous calculations or assumptions about baseline fuel economy of 4x4 NPAs, about the possibility of timely technological improvement and weight reduction and about the detrimental impact of performance reduction; and

WHEREAS, in addition to imposing such impossible time constraints on manufacturer compliance, the proposed NHTSA fuel economy standards recognize no unusual or unjust competitive disadvantage in compliance by manufacturers who have no lighter NPAs (under 6,000 lbs.) with which to average fuel economy and do not have a light-duty fleet from which to gain technology and hardware; and

WHEREAS, above and beyond their proven value as commercial work vehicles, 4x4 NPAs in the 6,000 to 8,500-lbs. range have repeatedly demonstrated their value in a wide variety of emergencies, both national and local; and

WHEREAS, implementation of the proposed NHTSA fuel economy standards would leave manufacturers with no alternative but to discontinue their production or to pay civil penalties for non-compliance which would inevitably produce the same result by pricing their vehicles out of the market; and

WHEREAS, the result of either action would deprive 1,272 citizens of the Indianapolis Plant of International Harvester of employment and would have a similar deleterious impact in other states where suppliers to and manufacturers of NPAs are located now, therefore:

**BE IT RESOLVED BY THE CITY—COUNTY COUNCIL OF THE
CITY OF INDIANAPOLIS AND OF MARION COUNTY, INDIANA:**

SECTION 1. That the NHTSA reevaluate its proposed average fuel economy standards for 4x4 NPAs in the 6,000 — 8,500 lbs. range with particular consideration for the real difference in purpose and function between such vehicles and lighter NPAs and passenger cars; for other federal regulations which conflict with or tend to negate those standards; for technological and time-frame feasibility of compliance; for the demonstrated value of these vehicles in a wide variety of both economic and humane activities; and above all, for the negative consequences of its proposed rule-making — consequences measured essentially by employment loss for many communities of this nation and many more inhabitants of those communities.

PROPOSAL NO. 79, 1978. Mr. Tintera introduced this proposal nominating Mr. David McVey to serve on the Economic Development Commission. Following discussion, the proposal was adopted by unanimous voice vote. Proposal No. 79, 1978, was retitled COUNCIL RESOLUTION NO. 4, 1978, and reads as follows:

PROPOSAL NO. 42, 1978. Mr. McPherson reported that Proposals Nos. 42 and 43, 1978, concerned two sewer annexation plans for Marion County. Proposal No. 42 annexed all of Marion County into the sewer district and Proposal No. 43 extended the current sewer district by one-half mile. Mr. McPherson stated that the federal government had mandated a tertiary treatment plan in order to clean White River. Eighty-five percent of the construction would be financed by the government and the other fifteen percent would be financed by the City through the sale of bonds. The rate of the tax levy varied \$.03 to \$.05. Mr. Clark then spoke about the annexation plans. He stated the sewer annexation levy would be paying for (1) the tertiary treatment plant, (2) the sewer interceptors, and (3) the bonded indebtedness. He disagreed with the idea that seven percent of the residents of Marion County would contribute to a service which they would probably never use.

He believed it was a question of minority rights. Mrs. Chambers supported county-wide annexation as allowing the city to grow. Following further discussion, Mr. Schneider moved, seconded by Mr. Dowden, the previous question. The motion failed on the following roll call vote; viz:

12 AYES: Mrs. Chambers, Mrs. Coughenour, Mr. Dowden, Mr. Gilmer, Mr. Hawkins, Mrs. Journey, Mr. Kimbell, Mr. Patterson, Mr. Rippel, Mr. Schneider, Mr. Tinder and Mr. West.
