To the Honorable President and Members of the Common Council of the City of Indianapolis, Indiana:

Gentlemen:

I have been requested by Mayor Reginald H. Sullivan to submit to you the attached copies of Board of Health Resolution No. 3, 1931, setting forth the fact that there now exists in the City of Indianapolis a large number of cases of scarlet fever, diphtheria and small pox, and asking for an additional sum of \$2500.00 with which to purchase the necessary supplies, as well as to furnish maintenance for a large number of families under rigid quarantine, in order to combat the further spread of said diseases.

I respectfully request that the necessary steps be taken in order to make said sum of money available for the use of the Board of Health.

Yours very truly,

WM. L. ELDER,
City Controller.

April 17, 1931.

Hon. William L. Elder, City Controller, City of Indianapolis:

Dear Sir:

I am informed by the Board of Health that there now exists in our city an unprecedented number of cases of scarlet fever, as well as an unusually large number of cases of diphtheria and small pox, requiring the employing of extraordinary means and measures to combat the further spread of said diseases. It is the desire of the Board of Health to purchase quantities of diphtheria antitoxin, toxin antitoxin, scarlet fever serum and small pox vaccine for the treatment of the existing cases of said diseases and prevention of the further spread of such diseases. I am also informed by said Board that this situation requires that subsistence be furnished to a large number of families in strict quarantine for such diseases.

This situation, in my opinion, constitutes an emergency which would require the expenditure by said Board of Health of more money than was made available for the use of said Board for such purposes in the budget of the Department of Public Health and Charities for the year 1931.

I therefore request that you recommend to the Common Council that it forthwith set apart and appropriate from Fund 2-26 of the Department of Finance, designated as "Mayor's Contingent Fund,"

the sum of \$2500.00 for the use of the Board of Health for the aforesaid purposes.

Very truly yours,

R. H. SULLIVAN,

Mayor.

April 17, 1931.

Hon. Reginald H. Sullivan, Mayor,

City of Indianapolis, Indiana:

Dear Sir:

At a meeting of the Board of Health held on April 3, 1931, said Board duly adopted its Resolution No. 6, 1931, setting forth the fact of the existence within the city of a large number of cases of scarlet fever, diptheria and small pox, and asking for an additional sum of \$2500.00 with which to purchase necessary quantities of serums, including diptheria antitoxin, toxin antitoxin, scarlet fever serum and small pox vaccine, as well as to furnish maintenance for a large number of families under rigid quarantine, in order to combat the further spread of said diseases. I am enclosing herewith a certified copy of said Resolution.

The Board of Health respectfully asks that the necessary steps be taken to make the said sum of money available for the use of said Board of Health for the aforesaid purposes.

Very truly yours,

H. G. MORGAN,

Secretary.

DEPT. OF PUBLIC PURCHASE.

ALBERT H. LOSCHE,
Purchasing Agent.

Indianapolis, Indiana.

April 17, 1931.

To the President and Members of the Common Council of the City of Indianapolis, Indiana:

Gentlemen:

The undersigned respectfully requests that subsection C, Section 14, of Article III of General Ordinance No. 96, 1928, now reading:

“(c) The Board of Public Safety is also empowered to determine and designate those intersections at which operators of vehicles shall not make a left or right turn and shall place, or cause to be placed, the proper signs at such intersections.”

be amended to read:

“(c) The Board of Public Safety is also empowered to determine and designate those intersections at which operators of vehicles shall not make a left or right turn and shall place, or cause to be placed, the proper signs at such intersections, except that vehicles shall not be prohibited from making a left turn from Massachusetts Avenue into Pennsylvania Street, nor

from Virginia Avenue into Washington Street, nor from Market Street into Pennsylvania Street, nor from Meridian Street into Washington Street, and further that vehicles shall not be prohibited from making a right turn from Washington Street into Meridian Street."

This request is made because we believe that our varied businesses are being very greatly discriminated against and handicapped by the present prohibitions in force whereby motor vehicle traffic is prohibited from making these desired turns at the aforesaid intersections.

The present restrictions that motor vehicle traffic may not move from Massachusetts Avenue into Pennsylvania Street diverts many of our potential customers reaching this intersection westward on Ohio Street, and causes them to travel five blocks instead of one, or four extra blocks should they desire to reach by motor vehicle merchants on the west side of Pennsylvania Street between Market and Ohio Streets; and to drive eight blocks instead of four, or four extra blocks should they desire to reach merchants located on the south side of Washington Street between Meridian and Pennsylvania Streets; and to drive five blocks instead of two, or three extra blocks should they desire to patronize merchants on the west side of Pennsylvania between Washington and Market Streets; and drive six blocks instead of three, or three extra blocks should they desire to reach merchants on the north side of Washington Street between Meridian and Pennsylvania Streets.

The present restrictions that motor vehicle traffic may not make a left turn from Virginia Avenue into Washington Street require that motorists on reaching this intersection from Virginia Avenue must drive three blocks instead of one, or two extra blocks and make a U-turn at Market and Pennsylvania Streets should they desire to reach merchants on the north side of Washington Street between Pennsylvania and Illinois Streets; or two extra blocks to reach merchants on the east side of Illinois Street between Washington and Market Streets.

The present restrictions that motor vehicle traffic may not make

a left turn at Meridian and Washington Streets part of the time require motorists reaching this intersection from the north to drive two extra blocks and make a U-turn at Maryland and Meridian Streets should they desire to reach merchants on the south side of Washington Street between Meridian and Delaware Streets. At other times when right turns are prohibited at Meridian and Washington Streets, motorists reaching this intersection from the North are re-

quired to drive five blocks instead of one, or four extra blocks, should they desire to reach merchants on the south side of Washington Street between Meridian and Pennsylvania Streets, and further unnecessarily congest traffic at the three traffic controlled intersections, namely, Maryland and Meridian Streets, Maryland and Illinois Streets, and Illinois and Washington Streets.

The present restrictions of prohibiting right turns at certain hours of the day at Meridian and Washington Streets require motorists reaching this intersection from the south to drive six extra blocks should they desire to reach merchants on the south side of Washington Street between Meridian and Delaware Streets.

Under the present regulations of prohibiting righthand turns at Meridian and Washington Streets during certain hours of the day, the motorists reaching aforesaid intersection from the east and desiring to go north on Meridian Street must generally drive to Capitol Avenue and return to Meridian Street, or in other words drive four extra blocks.

From a traffic standpoint, we feel that traffic congestion will be reduced by permitting motorists to reach a chosen destination over the shortest route thereto, in contradistinction to routing them over a round-about way.

From a practical standpoint, we feel that it is common knowledge that business may very easily be diverted by traffic regulations from one location to another, or from one block to another. Of course, it is not the function of the government to divert business one way or another. Property values and huge business investments are made

and anticipated on the basis of the usual, natural, and continuous use of the public highways. When two streets intersect, the natural use of the highways is that one may turn from one highway into the other. When legislation is enacted prohibiting a given turn, traffic is immediately diverted and property values and business investments lowered in the area discriminated against by such diversion of traffic.

For these meritorious reasons, we urge your honorable council to act favorably upon our petition.

Sec. 3. Each and every bid and proposal shall be presented to the City Controller sealed, and shall be accompanied by a duly certified check, or cashier's check, upon some responsible bank or trust company in the City of Indianapolis, payable to the order of the City Treasurer, for a sum of money which shall equal two and one-half percent ($2\frac{1}{2}\%$) of the face or par value of the bonds bid for or proposed to be purchased. The City Controller shall continue to receive all bids or proposals therefore at the office of the City Controller until eleven (11) o'clock a. m. on the day fixed by the City Controller and designated in the advertisement for receiving bids or proposals, at which time and place and between the said hour and twelve (12) o'clock noon of said day he shall open said bids or proposals, and shall continue to receive bids at said time and place from day to day thereafter until said bonds are sold.
